NEW MODEL PRESS RELEASE

2024 KAWASAKI MULE™ PRO SIDE X SIDE LINEUP

KAWASAKI STRONG

For over 30 years, Kawasaki MULE™ side x sides have offered unparalleled capability to take on both work and play with complete confidence. The Kawasaki MULE™ PRO family features the fastest and most powerful MULE™ side x sides ever built by Kawasaki with single-row and two-row model variations. The MULE PRO is built for getting the job done, whether it's helping transport passengers or cargo on the job site or on the trail.

For 2024, the MULE PRO-MX™ series of side x sides are offered in four trim variations with the MULE PRO-MX™ EPS, MULE PRO-MX™ LE, MULE PRO-MX™ EPS CAMO, and MULE PRO-MX™ SE and come equipped with Electric Power Steering (EPS). The MULE PRO MX offers a comfortable fit for two passengers, the muscle to cover more ground in less time, and the capability to get out for some fun when the work is done. Powered by a 695cc single-cylinder digital fuel injection gasoline engine that delivers 42.7lb-ft of torque. Power from the engine is passed through a precisely tuned Continuously Variable Transmission (CVT) with an electronically selectable 2WD/4WD system and a dual-mode locking rear differential, enhancing driver control in a variety of conditions.

The 2024 MULE PRO-MX™ SE has all of the same signature features of the MULE PRO-MX™ LE model and adds a high-quality painted hood, premium color and graphics, electronic power steering, cast aluminum wheels, inner LED headlights, and a sun top and comes equipped with a factory installed 3,000 lb. winch with remote control for distanced operation.

Rounding out the MULE PRO family for 2024 is the diesel-powered MULE PRO-DXT™ FE EPS Diesel which is a Fleet Edition model. The MULE PRO diesel-powered series is perfect for any ranch, job site, farm or fleet. Designed to work hard, the MULE PRO-DXT FE EPS Diesel features the three- to six-passenger Trans Cab system that quickly converts the vehicle from single-row to double-row seating. The Fleet Edition model features a plastic roof, high-visibility orange seat belts, horn and a universal key. This model is delivered in a Bright White color scheme, allowing customers to personalize the vehicle with their logo.

Each MULE PRO side x side is built with a tough chassis that provides a smooth ride through the use of independent suspension front and rear. The suspension provides a generous 8.7" of travel and excellent ground clearance. The entire MULE lineup is built to be the hardest worker on the job site.

To top it off, all Kawasaki MULE side x sides are confidently backed by the Kawasaki STRONG 3-Year Limited Warranty.

ABOUT KAWASAKI

Kawasaki started full-scale production of motorcycles over a half century ago. The first Kawasaki motorcycle engine was designed based on technical know-how garnered from the development and production of aircraft engines, and Kawasaki's entry into the motorcycle industry was driven by the company's constant effort to develop new technologies. Numerous new Kawasaki models introduced over the years have helped shape the market, and in the process have created enduring legends based on their unique engineering, power, design and riding pleasure. In the future, Kawasaki Motors, Ltd. is committed to maintaining and furthering these strengths which will surely give birth to new legends.

Kawasaki Motors Corp., U.S.A. markets and distributes Kawasaki motorcycles, ATVs, side x sides, and JET SKI® watercraft through a network of approximately 1,100 independent retailers, with close to an additional 7,700 retailers specializing in general purpose engines. Kawasaki and its affiliates employ nearly 3,100 people in the United States, with approximately 260 of them located at Kawasaki's Foothill Ranch, California headquarters.
